## FOR IMMEDIATE RELEASE

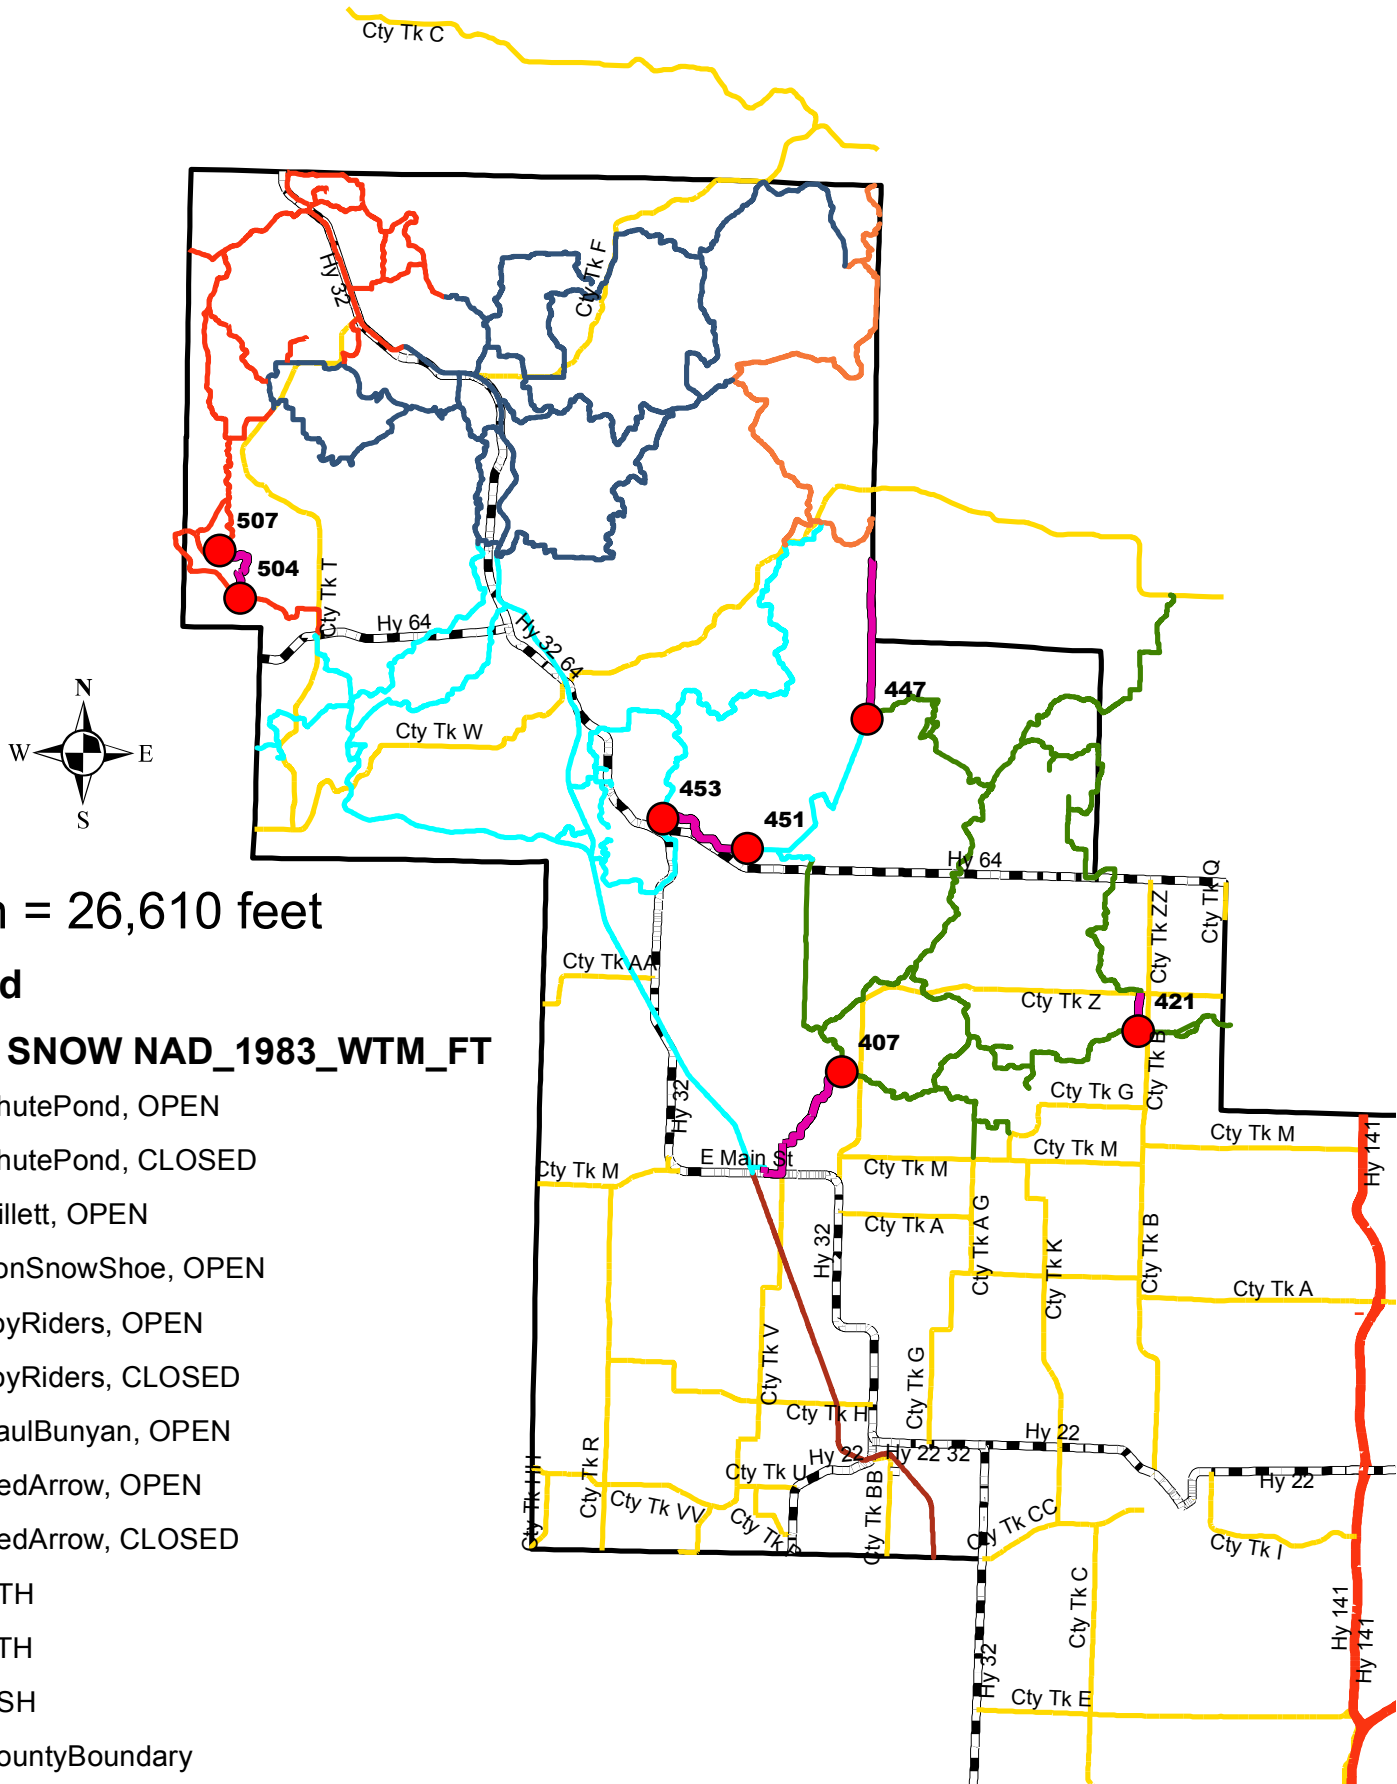

### Oconto County Snowmobile Trails Open Friday, December 20, 2019

Oconto County snowmobile clubs and volunteers have worked tirelessly to get the Northern Oconto County Snowmobile Trails cleaned up, groomed and ready for your snowmobiling enjoyment. There are a few sections of trail that are not open. Those sections are detailed on the attached map. The southern trails remain closed as the majority of those trails are on Ag land that have not been harvested or swamps that have not frozen over.

The nine snowmobile clubs in Oconto County work together with the Oconto County Forest Administrator, who gives the final approval before trails may open. Once the Southern trails are approved to open, the announcement will appear on the official Oconto County Trail Report web page <https://www.ocontocounty.org/trail-reports/> . For your own safety, and that of the club groomers and volunteers- please stay off the southern trails - do not ride on closed trails. For more information, please contact the Oconto County website or the Forest and Parks Department at 920-834-6995.
